

Tap **BOLUS** from the Home screen.

If the blood glucose (BG) value is above target, tap **✓** to add a Correction Bolus or **✗** to decline.

If it's below target, but above 70 mg/dL, tap **✓** to reduce the amount or **✗** to decline.

Tap **0 grams** to enter the carbohydrate amount.

Tap **✓** to save values.

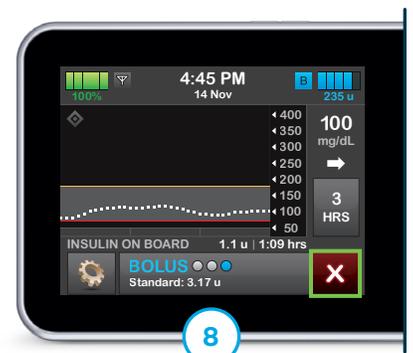

Tap **✓** to confirm request.

Skip to the next page to **deliver an Extended Bolus** for meals high in fat and/ or protein (e.g., pizza), slow digestion, or frequent snacking (e.g., party).

Tap **✓** to deliver bolus.

To cancel bolus, tap **✗** on the Home screen and then **✓** to confirm.

1 Tap the toggle on.

2 Tap to continue.

3 Use the default settings or tap the DELIVER NOW percentage to update the amount.

4 If desired, tap **2 hrs** to change the length of time.

5 Tap to save values and then tap again to confirm request.

6 Tap to deliver the Extended Bolus.
